PROJECTS

E-Tutors (Full-Stack)   Live Site Frontend Code Backend code
(16 Sep 2022 - 24 Oct 2022)
- I have built a learning management system called E-Tutors using React, Bootstrap, Node.JS, Express.JS, MongoDB, and Cloudinary.
- Both students and teachers can use this system, but there will be some feature differences between them.
- From here, students can find tutors for their specific subjects and check their preparation through online tests.

The Cycle House (Full-Stack)   Live Site Frontend Code Backend code
(12 Nov 2021 - 19 Nov 2021)
- The user will be able to purchase any bicycle from this website and he will have to login to purchase.
- If the admin enters this website with anything other than the admin email and password, he will not be able to see the admin dashboard.
- I create this website in Full MERN Stack Focused.
